

# HP Wireless Keyboard K5500

The HP Wireless Keyboard is one modern, high-end device. Its sleek, ultra-slim design takes the ordinary keyboard to a brand new level. How does it work? Even better than it looks. Superior functionality combined with brilliant comfort feels amazing to the touch. It's just a dream to type on.

- HP's Wireless Keyboard screams modern with its ultra-slim shape. Typing feels amazing with the low-profile, scissor-style keycaps that are extra responsive and pleasing to the touch. Plus, adjustable legs promote a more comfortable wrist posture.
- Low-profile keys type more quietly for an enhanced experience. Stand-alone design keeps the dirt out and your keyboard cleaner, while handy controls are strategically placed for ease of use.
- HP built the Wireless Keyboard with your need to roam in mind. Compatible with most desktops and notebooks, 2.4 GHz wireless connection gives you the liberty to move up to 10m (30ft) away and still type!
